

Get 5x more donation on your first 25 waste units shipped to TerraCycle

Starting: July 11, 2010

Dear Brigade Participant,

Today, more than 11 million people are collecting waste in 5 countries for TerraCycle. Through you and their efforts, more than 1.9 billion pieces of garbage have been diverted from landfills into new, productive uses. Thank you for all for your support and hard efforts.

We've noticed that for at least one of your Brigades, your location has not yet sent in its first shipment. If you don't send us in a package of that category of waste soon, we'll have to make your location inactive and give the allocation to another collection location. To encourage you to begin sending us waste, we've created an additional incentive. On your first shipment on this (and each brigade in which you are registered), we'll pay 5x more on the first 25 pieces of waste to the charity or school you selected.

Here's how the "get 5x more donation" incentive works:

For the first 25 pieces of waste you send us in any brigade, you'll receive 5 times the normal credit. For example - If your location sends us 300 pieces of waste in your first shipment, the first 25 pieces will be credited \$.10 for each piece of waste instead of \$0.02 and the rest of the 75 pieces will be credited the typical \$0.02. In this example your location will be credited \$8 instead of \$6.

How long will this promotion last?

The promotion begins on July 11th and lasts for the first 6 months from your initial sign-up to a Brigade. For instance, if you signed up for a Brigade on May 1st, then you have until November 1st to send in your first shipment and receive the 5x donation credit. If you have already sent in your first shipment, then your account will not receive the 5x credits, but we thank you for being an active and growing location.

If you have additional questions, please feel free to contact TerraCycle Customer Support at customersupport@terracycle.net or call 1-866-967-6766.

Thank You,

TerraCycle Brigades Team
